

# Softserve & Atlassian

## A strategic partnership driving innovation

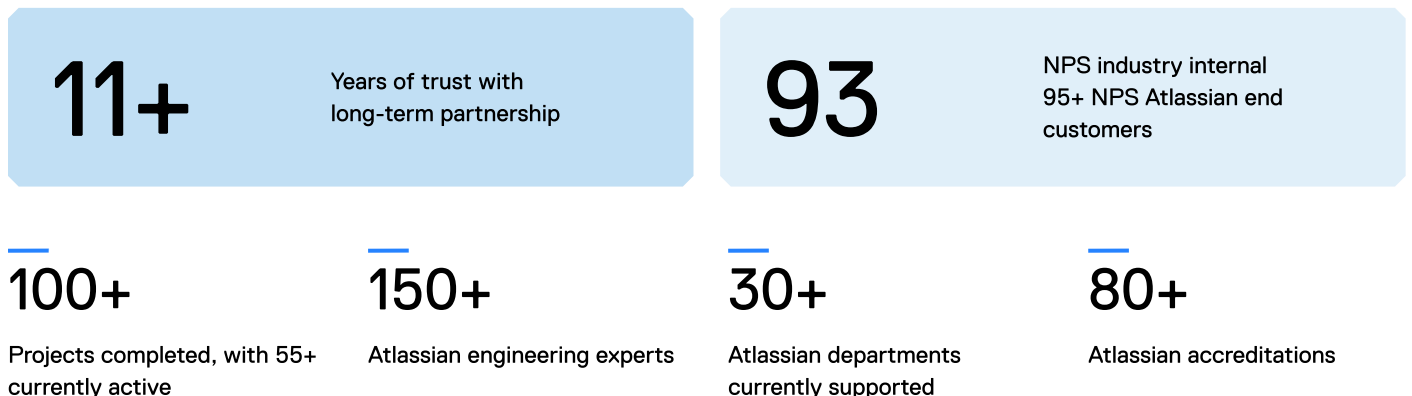

Since partnering with Atlassian in 2015, we've become a tier-one preferred partner trusted by internal engineering teams. With over 100 successful projects, we have deep expertise in the Atlassian platform and full alignment with engineering culture and best practices.

Our dual perspective — building products for Atlassian and supporting their customers — gives us unique insight into how these tools solve real-world challenges. We use this trusted relationship to deliver tailored, high-quality solutions that meet complex business needs, built on transparency, teamwork, and continuous improvement.

### OUR PARTNERSHIP TIMELINE

### SOFTSERVE GLOBAL REACH AND EXPERTISE

## CORE SERVICES

|  |  |   |
|--|--|---|
| Applications and solution architecture  | Product management and business analysis  | 24/7 support; L1/L2, on-calls                    |
| Software engineering                    | Quality engineering, automation QC/SET    | Low-code platforms, robotics process automation  |
| UX/UI design                            | Tech and content writing                  | DevOps, SRE, release management                  |
| Program management                      | Project management                        | Accessibility services                           |

## WHY CHOOSE SOFTSERVE?

### Proven partnership success

As a tier-one Atlassian solutions partner, we deliver high-quality engineering solutions aligned with Atlassian's values. Acting as an extension of your team, we provide technical expertise, proactive problem-solving, and strong communication, earning client trust and Atlassian recognition. Our professionalism, adaptability, and leadership ensure meaningful results.

### Global coverage

SoftServe's Atlassian experts are spread worldwide, resulting in global time zone coverage and availability.

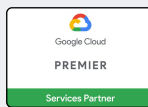

### High-quality and integrated talent

We offer a turnkey solution for staffing, onboarding, and delivery, fully aligned with Atlassian's expectations from day one. Success in this environment requires speed and flexibility, and our teams are built to match Atlassian's pace. We adapt quickly to changing priorities and integrate seamlessly into your workflows.

### Extensive experience and ongoing agility

The SoftServe team has a deep understanding of the Atlassian ecosystem and a proven track record of successfully delivering projects and products on a large scale.

## STRATEGIC PARTNERSHIP WITH

## OUR INITIATIVES

**Artificial Intelligence:** Rovo enablement and agents offerings to customers enablement at SoftServe.

**Ecosystem:** Forge apps development, migrations, and accelerators. Marketplace partners support the FastShift program.
